

Mission and Outreach – Holiday Club

Holiday Club 7th – 12th January 2018

Superhero's

What an amazing Holiday club we had this past January. We really were blessed that we could have so many wonderful leaders and children each day, spending time together in fellowship and worship. We give thanks to the Lord for all the children who had the opportunity to encounter the Lord for the first time, and welcome Jesus into their hearts. Each evening we also had the opportunity to enjoy some time with the leaders, arranging some fun events which included various water fighting activities, as well as an evening filled with various worship – singing, crafts etc.

A big thank you to the entire West View family for all the love and support during this awesome outreach and for making it all possible!

LIFE CHANGE IN OUR YOUTH

Dear Parents of West View

Hi everybody! We are back and excited for what 2018 has to offer for us. This year we have a new youth intern working with us here at church!

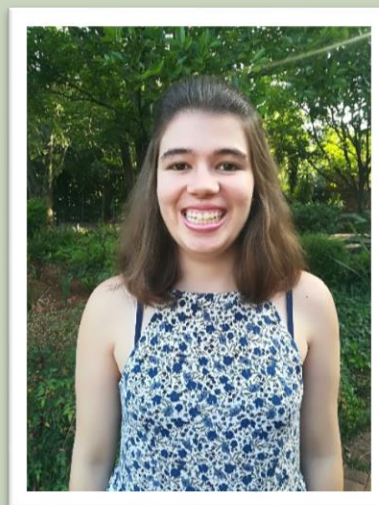

Let us introduce...

Lara Dickson

Hey hey 😊

I'm super happy and blessed to be here. I am originally from Johannesburg. I'm aiming to become an epic Youth Pastor. I love spending time with the youth and children as they hold my heart.

See you around.

Leadership Focus

BE what you want to SEE

Sunday the 4th of Feb West View hosted our annual prefect and leadership service. We were blessed to have over six schools from around Centurion in attendance. At the service we coined the phrase...

"If you wanna be what you wanna See you gotta remember I.R.P"

What is I.R.P.??

I. nactive

To BE what you wanna SEE a good leader must always know when to be INACTIVE. Sometimes we need to take a step back in our leadership and allow others to do the work or to participate. We also need to be cautious as leaders that we are not standing idle when there is a job to be done. Sometimes the only way to solve a problem is to be the solution ourselves.

R. eactive

A good leader should always know how and when to react to a situation, or problem. The way we react can define the outcome, if we panic or lose focus we will get nowhere. A positive and swift reaction goes a long way!

P. roactive

Lastly P. is for Proactive. As a leader we should always be thinking ahead, constantly looking for good opportunities to serve or be an asset to those around us. This could be at school, home, varsity or work. There is always something we can do even if it means planning or getting to the niggly things that we don't always enjoy. Being proactive helps us to not be inactive. The more proactive we are the better our reaction to things will be as we will always be prepared!
